

WOODCHOP CRADLES AND EQUIPMENT CATALOGUE

Alltype Engineers have over 45 years' of industry experience and we pride ourselves on delivering a prompt & Quality service.

Alltype Engineers have worked with the QAA, RNA and a variety of regional shows over the years to develop some of the most regarded and widely used Woodchopping equipment in Australia. Below is a selection of some of the equipment we can produce here at Alltype Engineers, but in addition, we can also custom fabricate equipment to your unique specifications. Give us a call today to discuss your needs.

In addition to this we can assist in fabrication of specialty equipment tailored to your needs.

Description	Picture
<p style="text-align: center;">Underhand Cradles</p> <p>These Cradles have been developed for many years with the very best axeman in the world. These Cradles are the very same cradles used in many arenas around Australia, including the EKKA, RNA & many regional shows. Used by the QAA hire trailer</p>	
<p style="text-align: center;">Standing Block Cradles, A frame type c/w turn buckles</p> <p>These standing blocks have been developed for many years with the very best axeman in the world. These standing blocks are the very same standing blocks used in many arenas around Australia, including the EKKA, RNA & many regional shows. Used by the QAA hire trailer</p>	
<p style="text-align: center;">Standing Block Cradles Pipe frame and base plate</p> <p>Used at the Lawnton, Redcliffe, Blackbutt & many other regional shows. This clamping system is very durable and has been in use for many years with the unique clamp bolt & ridge construction this has been rated by many world champions, the best standing block they have used.</p>

<p>Standing Block Cradle Top Only</p> <p>This is the same as all of our other tops but gives you the flexibility to bolt or weld it to your existing stand that you may already have.</p>	
<p>Sawing Dummy's Channel type and base plate</p> <p>These Dummies are used at many Royal & Regional shows across the country with the ease of some 22 8mm mounting holes. It gives you the flexibility to have your log just were you want it.</p>	
<p>Sawing Dummy's folding type</p> <p>These Dummies are the same as the sawing dummy channel type above, but with the flexibility to fold down for storage and transport ease.</p>	<p>Picture not available at this time</p>
<p>2 Sawing Stays and 4 Picket pegs</p>

Rachet & Socket Sets	Picture not available at this time
<p style="text-align: center;">Log Wrapper</p> <p>By far the most user-friendly wrapper on the market, with the large pneumatic wheel for ease of wheeling it around the log yard & with the handy storage table on top for all your marking needs</p>	
<p style="text-align: center;">Double ended sawing cradle</p> <p>We were asked by QAA to build some new double ended cradles for their regional show trailer. It had to be easily stacked yet stand up to the rigors of loading & unloading & traveling all over the country. This cradle has turned out very compacted, but still with plenty of room for two wedgers to work at the same time, with 48 8mm mounting holes on each end. This cradle fits perfectly to the customer's needs.</p>

<p style="text-align: center;">Aluminium Axe Wedges</p> <p>The Aluminium Wedges are made from a High Tensile 5083 Extruded Aluminium and are 60mm deep x 55mm wide x 6mm thick</p>	
<p style="text-align: center;">Steel Axe Wedges</p> <p>The Steel wedges are 63mm deep x 63mm wide x 7mm thick.</p>	
<p style="text-align: center;">Custom Swivel Sawing Handles</p> <p>Here at Alltype Engineers we have the ability to make custom parts or equipment, if the sawyer or Axe person desires something out of the ordinary for example these handles.</p> <p>These Handles where made for Shane Maxell to help him with his technic after he had knee surgery. These one-of-a-kind handles took Shane to two (2) state titles, two (2) Royal show titles & five (5) Local show Titles. Which saw him QAA sawyer of the year in 2019 & Runner up in 2018. All while using this custom handle.</p>
