

GEOTECHNICAL DRILLING EQUIPEMENT CATALOGUE

Alltype Engineers have over 45 years' of industry experience and we pride ourselves on delivering a prompt & Quality service.

We have been manufacturing and stocking a number of items for the Geotechnical Drilling Industry for a number of years now and have put together this Catalogue to show case what we have available.

In addition to this we can assist in fabrication of specialty equipment tailored to your needs.

Note: - Unfortunately due to the current volatility in steel merchant product pricing caused by Covid-19, we are unable to provide pricing in our catalogue at present. Pricing can be obtained by requesting a quote at time of order and quoted prices will be valid for 7 days only.

Note:

* Special Order – These items are not held in stock and are Manufactured as required.
